

# Tender Care

Pregnancy Consultation Services

Greetings Friends of Tender Care,

I hope everyone enjoyed a blessed Christmas and the New Year is off to a good start. As with you, last year was a bit of a struggle for us. How did we make it? We worked with our bank and the Small Business Association, we added a dash of creative fundraising, and of course, your undying loyalty and generosity was icing on the cake. We are taking the same approach this year. However, the challenges this year may be our greatest yet. President Biden is an extremely strong advocate for unrestricted and government funded abortions. It has been said that his administration will be the most pro-abortion administration in U.S. history. By executive order, he has already reversed both the Hyde Amendment and the Mexico City Policy, allowing federal tax dollars to be used for abortions, and to fund abortions in foreign countries. In addition, the U.S. Senate again rejected "Born Alive" legislation, which would require babies who survive an abortion to receive the same level of care as newborns of the same exact gestational age. This means that if a baby survives abortion, the baby can merely be set aside...to die.

Some of you may feel as Ronald Reagan stated in a speech he gave in 1964, that we are about "to take the last step into a thousand years of darkness." But there is hope! In the 2020 election cycle, 18 new pro-life women were elected to the U.S. House of Representatives. Out of these 18 women, 10 have flipped seats that were formerly held by pro-abortion representatives. The Supreme Court is now poised to protect life. The pregnancy care movement stands strong. In 2019, 2,700 pro-life pregnancy centers nationwide served almost 2 million people at an estimated value of nearly \$270 million. And as we see in Pennsylvania, Pro-Life is still a winning strategy at the state level.

Pregnancy centers are on the front lines of the pro-life movement, caring for women most in need. With your help, Tender Care will continue to serve mothers and babies in this new and most challenging year, and remain a witness of true compassion, care, and empowerment.

Remember, it's only over when we say it's over – We Are Never Out Of The Fight!

Sincerely,

*Vincent C. Pacelli*
