Your support helps provide fact based, accurate education and compassionate assistance to women, men, families and students.

We offer positive alternatives to abortion and support through the entire pregnancy, and maintain a relationship for future years.

"When I first thought I was pregnant, I was scared and didn't know what to do. A friend told me about Tender Care.

They took time and listened to me. I felt comfortable to share about my situation and my concerns. We discussed all of my options. I was able to see my baby on ultrasound. I appreciate the parenting classes, education, help and support. I am glad to know Tender Care is always here if I have any questions."
